

SURFASCLEAN Fungicidal Wash Concentrate

What is SURFASCLEAN Fungicidal Wash Concentrate:

SURFASCLEAN Fungicidal Wash Concentrate is a non-corrosive, biodegradable, concentrated solution formulated for cleaning masonry, concrete, and natural stone surfaces prior to the application of SurfaPore C or other coatings.

Specification Tip for Design Professionals:

SURFASCLEAN Fungicidal Wash Concentrate may be specified by name or by using the following description: an organic, non-corrosive, biodegradable, concentrated solution, formulated for cleaning surfaces prior to the application of SurfaPore C or other coatings.

What are the key benefits of SURFASCLEAN Fungicidal Wash Concentrate:

- Concentrated solution - diluted with clean potable water
- Highly effective - long lasting protection
- Non-corrosive - safe to use on a wide range of substrates
- 100% Bio-degradable
- Environmentally friendly
- May be used as a Masonry Sterilant against dry rot

How does SURFASCLEAN Fungicidal Wash Concentrate work:

SURFASCLEAN Fungicidal Wash Concentrate solution gently breaks down the contaminants, resulting in a surface which is clean and free from fungicidal growths such as mildew, moss and mould.

How do I apply SURFASCLEAN Fungicidal Wash Concentrate:

- Remove heavy deposits of contaminants from the surface using a stiff brush.
- Dilute the **SURFASCLEAN Fungicidal Wash Concentrate** with the required amount of clean potable water.
- Although **SURFASCLEAN Fungicidal Wash Concentrate** is suitable for use on most surfaces, it is recommended that a small test area is treated to ensure suitability.
- Using a low pressure sprayer or a soft brush apply the **SURFASCLEAN Fungicidal Wash Concentrate** solution at the rate of approximately 3-5m²/l. On heavily soiled areas a further application may be required.
- Allow the solution to work on the surface for approximately 10-15 minutes.
- Wash the surface with clean potable water and allow to dry.

Note:

Temperatures must be >6°C prior to commencing work. Do not apply if imminent rain is expected.

Dilution Ratio:

SURFASCLEAN Fungicidal Wash Concentrate may be diluted with clean potable water (up to 5:1) or used undiluted, dependant on substrate type and contaminant.

Coverage:

SURFASCLEAN Fungicidal Wash Concentrate will clean approximately 3-5m²/L.

Packaging: **SURFASCLEAN Fungicidal Wash Concentrate** is packed in 5 litre containers.
